

Our philosophy is to provide our hundreds of happy customers with a reliable and effective lawn service at an affordable price.

We are a privately owned Yorkshire company with qualified and trained technicians who can provide advice and apply the appropriate treatments to improve your lawn.

We will conduct a free lawn assessment and suggest a tailored range of treatments to help create the green, weed and moss free lawn you have always wanted.

A beautiful lawn is only a step away!

Our lawn service programme includes:

- ▶ Professional fertiliser applications
- ▶ Weed and moss control treatments
- ▶ Scarification, aeration and renovation

Don't delay...

...call us now for your free survey!

Lawn Force only use specialist professional products associated with golf courses and premier sporting venues. We offer solutions for both domestic / commercial lawns and sports turf.

All products are safe to children and animals

A professional team with over 30 years experience!

1 Spring Programme

Comprising of an application of controlled release granular fertiliser that encourages the grass to green up and grow. An application of lawn moss killer and selective weedkiller is also applied.

2 Early Summer Programme

The early summer treatment includes an application of special non-scorch controlled release fertiliser and another application of liquid selective weed killer.

LAWN FORCE

A beautiful lawn is only a step away!

...and it costs less than doing-it-yourself!

- ✓ Treatments start at any time through the year
- ✓ Pay as you go service
- ✓ Organic lawn fertiliser programmes available

ADDITIONAL SERVICES

- MACHINE SCARIFICATION**
Removes thatch, a thick fibrous layer, which can restrict growth severely and if not dealt with aid moss and weed growth.
- HOLLOW CORING / SOLID SPIKING**
Improves surface drainage and root growth, relieves compaction and ensures a good supply of oxygen.
- LAWN RENOVATION**
A service to restore damaged and worn lawns through a combination of scarification / coring / overseeding or where necessary re-turfing.

3 Late Summer Programme

The late summer treatment includes an application of no scorch controlled release fertiliser with a powerful specialist selective weed killer that targets the resistant types of lawn weed.

4 Autumn/Winter Programme

Preparing the lawn for winter with a treatment of slow release fertiliser and lawn moss killer. The Lawn Force free survey will analyse your soil to help judge whether it will benefit from aeration and moss / thatch removal to make the lawn as vigorous and healthy as possible.
